THE DISTRICT WIRES.

Report of the Tetegraphic and Telephonic Connections.

Major Brock and Mr. Henry R. Miles, superintendent of the fire-alarm telegraph, yester-day submitted to the Commissioners a full report of all the telegraphic and telephonic connections of the District, the number and location of sta-tions, extent of circuits, rent paid, and all other information on the subject which could be col-Bected, from which it appears that the fire-alarm lines have twenty-three circuits and about two hundred miles of wires. The police telegraph, erected by order of the Police Board, connects the eight precinct stations with each other and with Headquarters, as well as with the Insane Asylum Reform School, and various other institution Twelve school buildings are connected by rele phone. The report strongly urges the necessity of the District owning its own telegraphs and telephones, and auggests the erection of a central office, through which all the District property sould be connected. The suggestion is also made that the palice telephone wires be placed upon the

FORT DAVIS, TEX., Aug. 15 .- On the morning of August 13 the people of the pleasant garrison of Fort Davis were thrown into a state of wild excitement by a rumor to the effect that Lieuwild excitement by a rumor to the effect that Lieutenant H. O. Flipper (the colored officer). Tenth Cavalry, had been detected in an "tempt to defraud the Government of nearly". At first the rumor would not be between a high character, and every one believed nim to be "above suspicion." For several months

leutenant Flipper has been acting commissary of subsistence of this post, and since the 9th of July last he has not transmitted his commissary funds to the chief commissary of the department, at San Antonio. A few days ago Colonel Shafter (the commanding officer here) received a telegram from the commissary at San Antonio stating that LIEUTENANT PLIPPER'S PUNDS

had not been received: that he had telegraphed the fact to Licutenant Filpper, asking for informa-tion of them: that he had received no reply, and requested Colonel Shafter to investigate the affair. Colonel Shafter questioned Lieutenant Flipper, who stated that he had sent the funds by mail on the 5th of July, but that he had kept no record of them, and as no one had witnessed the mailing (as I believe is usual in such cases) he could not prove that he had done so. This was looked upon as a very gross piece of carelessness on the part of Lieutenant Flipper, but no one regarded it as any-

On Friday evening some of the officers and ladies were driving, and seeing Lieutenant Fito-per's horse, with a pair of saddle-bags on the saddle, fastened in front of one of the stores in the little town of Chilushua, immediately outside of the garrison, thought that it looked as though Licutenant Flipper might be contemplating a flight into Mexico; so the commanding officer sent the adjutant to bring Lieutenant Flip-per into the garrison, when he required him impediately to turn over his funds to another officer and relieved him from duty as acting commissary of subsistence. The funds which Lieutenant Flipper claimed to have sent by mall on the 9th of July were composed in part of checks on different banks, which had been given him by the officers s payment of their mouthly bills. A description of these checks was telegraphed to the banks and information received in reply that they had not been presented for payment. The commanding officer now concluded that circumstances

LOOKED VERY SUSPICIOUS indeed, and determined to have Lieutenant Flip-per's quarters searched for the missing checks. He accordingly told Lieutenant Plipper that circumstances pointed to his having made away with the commissary funds, placed bim in arrest, and began the search of his quarters, telling Licotenant Flipper that he might possibly be doing him an in-justice, that if it proved so he could very easily and willingly make amends to him for so doing, and that otherwise he was only doing his duty. The adjutant and the officer who had relieved Lieutenant Filpper were appointed to search his quarters, and they found money to the amount of \$200 or \$100 strewn about in a very careless man-ner, in drawers, books, trunks, desk, &c., besides a quantity of gold jewelry, consisting of watches and chains, rings, buttons, earrings and pins, bracelets, lockets, &c., some of which are claimed by his woman servant. Several weekly statements subsistence funds which had been examined and signed by Colonel Shafter were found, some

IN HIS SERVANT'S TRUNK.

These papers Lieutenant Flipper had claimed to bave sent off also, and after finding some of them in the servant's trunk Colonel Shafter questioned and, finding an envelope containing the missing checks concealed on her person, the woman was urned over to the civil authorities, and is now odged in jail. Lieutenant Flipper, to prevent his escape, has been confined in a cell at the guard. house. Lieutenant Flipper had the respect of the officers at the post, and has been treated very kindly by them, though he has never shown a disesition to mingle with them in a social manner. preparations for their opening. The Opera-House has not quite completed its contemplated improve ments, but it will be opened to-night and to-mor row for a brief engagement of the combination under the control of Anthony, Ellis and Hathaway, which is said to really consist of four distinct shows, with a larger gathering of specialty artists than any other traveling organization. There will be a street parade that will no doubt indicate the strength of the company. It has been many weeks since our lovers of amuse-ment have had an opportunity to at-tend a theatrical performance, and the engagement, which commences to-night, should be successful. Lovers of pantomime will be delighted to know that Ravel's newly-hatched Humpty Dumpty troupe, with the great Grimaldi as clown, constitutes a leading feature, and this company is the most complete pantomime troupe in this country. Every one will be eager to see the beautiful Sadwah, a veritable East Indian princess and dire worshiper, who has but recently arrived in this country from the Orient. Her songs and specialties once heard and seen are never to be forgotten. The musical attractions of the consolidation are superb, and the specialty artists are well-known favorites.

[NATIONAL THEATRE.

Manager Albaugh and his able representative, Mr. Sam G. Kinsley, are making claborate prepara-tions for the fall opening of the National Theatre, which will take place on the 8th proxime. For sometime the eminent scenic artist, Mr. James Lamb, has been engaged upon a new drop curtain to take the place of the former feet-washing scene. which has presented such a bath-roomy appear ance for several seasons. The new curtain will present an enlarged copy of James Cole's celebrated picture entitled "A Dream of Arcadia." In the foreground is a pastoral scene of perfect quiet enlivened by a few gracefully-grouped figures. Upon the left is a long vista extending through a path between two rows of noble trees, whose plenteous branches meet and in-tertwine at the top. On the right is a limpid pool, while smong the trees at the back is a temple from worch the smoke of sacrificial fires is seen ascending to the akles. Beyond rise mountain peaks whose tops mingle with the ciouds of a perfect sky. Mi Lamb has exerted himself to make this an effort worthy of his reputation, and when it is comseted it will no doubt merit the verdict of popu lar approval. It is intended to thoroughly renovate the aditorium, the walls to be repainted, the frescoing to be gone over, and the floor to be entirely coing to be gone over, and the noor to be entirely furnished with new carpets. The season will open with Measrs. Barlow, Wilson, Primrose and West's Minstrels, to be followed by Kiralfy's "Black Crook" and all of their spectacular attractions; Hermann, the magician; Har-rison's "Photos;" Lotta; T. W. Keene, the tragedian; Emmet, Emma Abbott's Opera Com-pany, the Florences, Miss Genevieve Ward, Maggie Mitchell, John T. Raymond, Joe Jefferson, "The Banker's Daughter" Combination, Hocy & Hardle's "Child of the State" Combina-tion, Fanny Davenport, Mary Anderson, Mr. and Mrs. George Knight, Hugh's London Minstrels (one hundred strong), Nat Goodwin and wife, the Troubadours, Lawrence Barrett, John McCuilough Willie Edouin, Den Thompson, Robson & Crane, "The World," and Fred Paulding.

To the Editor of THE REPUBLICAN:
The special bulletin of this morning fire telephone poles, the others being overcrowded shows a division of opinion in the board of surgeons as to the propriety of removing the Presi-dent to more congenial quarters. Why not let the earnest wishes of the patient and of his devoted wife, with that of the millions, turn the scale in favor of a change? It surely would be a benefit, and can be done with scarce a ruftle of his weary body. Again, would it not be the proper thing for his official family, the Cabinet, to issue tri-daily statements of facia for the people? We look to them for counsel in affairs of state. Why not ex-

TWO BOAT RACES

On the Eastern Branch and on the Pote mac-Large Attendance.

Two exciting and well-contested boat races took place on the Eastern Branch yesterday afternoon. The principal contest was a three-mile race for a stake of \$40 a side and the championship of the District, between Messrs. Lewis and Mans-field and Messrs. McDermit and Robey, in doubleoared working boats. The course was from the Navy-Yard Bridge up the stream for a distance of one and a half miles and return. At twe nty-three minutes to seven the word "go was given. McDermott and Robey took the water first and their antagonists almost instantly fol-lowed. A beautiful race was had from the start to the turning point, which was rounded first by Lewis and Mansfield in 8m. 25s. Mc-Dermott and Robey turned a few seconds later. The race home was hotly conones later. The race hold was noty con-tested. Lewis and Mansfield were never headed after the turning-point was reached, but their op-ponents pushed closely all the way home. Amid great enthusiasm Lewis and Mansfield finished in 19m. 1259., one and a quarter lengths in ad-vance of their rivals. Mr. Joseph Brown acted as referee; Captain Cutler, time-keeper; Measrs, Ed. Stackpole and Andrew Hutchins were judges for the victors, and Messrs. Stewart and McDonald for the vanquished. The attendance was very large

and the excitement intense.
THE PASSAIC VS. THE DISPATCH. About the same time a race occurred between two boats' crews belonging to the United States vessels at the navy-pard, one from the recieving-ship Passaic and the other from the United States atomor Dis-patch. A large crowd of prominent officials wit-nessed this contest, and considerable interest was manifested. The crew from the Dispatch seemed to have everything their own way, for they won easily by about fifty yards. The time of the Dispatch boat was 21m, 10s; the Passale boat 22m, 45s. Secretary of the Navy Hunt was not present, as was expected. Captain A.A. Semmes, the com-mandant of the yard, carried a large party over the course in one of the steam launches. The dis-tance was one and a half miles and return from a point opposite the yard.

That Post-Office Swindle.
To the Editor of THE REPUBLICAN:

I received yesterday a letter from Piney Point, on which the usual three-cent postage had been paid, as evidenced by the stamp on the enbeen paid, as evidenced by the stamp on the envelope. When the carrier handed me the letter he demanded one cent additional payment, there being a brown stamp on the envelope marked. One cent due. Can you tell me why the postage between Pincy Point and here should be four cents, while I can send a letter of the same weight from here to San Francisco for three cents. If, as I am informed, and the fact that the three-cent stamp was causeled in the Washington post-office would seem to bear out the truth of statement, there is no mail connection with points on the Potomac River, and the letters are brought here by the couriesy of officers of the steamboats, and by them deposited in the city post-office, why should such letters not be delivered at the usual rates of drop letters, instead of at double these rates? Any light that you may throw upon the subject will be gladly received by one who thinks himself yielimized by the Post-Office Department.

mittees Yesterday. The joint committee representing the Yorktown Centennial Commission and the citi-zens of Washington and Baltimore held a meeting yesterday morning in the office of Hon. George B Loring, Commissioner of Agriculture. Beside Loring, Commissioner of Agriculture. Besides Dr. Loring, who represented the congressional Dr. Loring, who represented the congressional committee, there were present Commissioner Dent, of the Citizens' Association; Judge H. H. Blackburn, and Colonel J. C. McKibben, representatives of the National Fair Association; Messra. D. E. Conklin and J. R. Bland representing the city of Baltimore. The dates to be fixed for the entertainments in Washington and Baltimore was discussed, but no conclusion reached. Dr. Loring stated that the George Leary had been chartered to take the members of the congressional ered to take the members of the congressional commission, the orator, poet, and other invited guests to Yorktown, and would probably leave on the evening of October 17 with a party of about two hundred. Coionel McKibbon stated that the exhibition of the Fair Association would open on the 10th and last one week. open on the 10th and last one week. The Baltimore representatives announced that their entertainments open on the 10th and will last three days. They particularly desire to have the French guests there to witness the Oriole celebration, which takes place on the 12th. Dr. Loring said it might be advisable to postpone the civic display in Washington until after the 21st. By that date the guests would all have returned from Yorktown. After some discussion the general con-clusion arrived at was that the Baltimore celebra-tion should take place on the 10th, 11th, and 12th, and that the WASHINGTON DISPLAY

should be on the 13th, 14th, and 15th of October The date of the arrival of the French guests not having been yet ascertained, a complete arrangement could not be perfected until this date was fixed, and it was decided to hold a conference with Secretary Blaine on the subject. The meeting then adjourned. After leaving the Commissioners' office, Messrs. Blackburn, McKibben, Bland, and Conklin; called at Secretary Blaine's office. He was absent, but Assistant Secretary Hitt informed them that the French guests, numbering about twenty, escorted by one or two large war vessels, with troops, would arrived in this country about October 5. This will give them a few days to get "the hang of the thing" before the celebration commences. After leaving the State Department the members of the committee reassembled at the rooms of the Fair Association. It was finally decided that the Baltimore celebration should take place on the 10th, 11th, and 12th, and here on the 13th, 14th, and 15th of October. Th guests will then leave for Yorktown on the 17th Arrangements have been made with all the leading railroad and steamboat lines east of the Missis-sippi for half rates, tickets to cover all three points—Yorktown, Washington, and Baltimore. Dr. Loring was requested to see William H. Van-derbilt and Robert Bonner and request them to give an exhibition of some of their fast trotters at the fair grounds.

The following is received from an authoritative source at M. Elimbeth;

Ex-Congressman Martin Frankfin Conway has not been "released" from St. Elizabeth, as unnounced in the Mar of last Friday. He, goes about the grounds and the environs freely on his parole, and over to the city occasionally with an attendam. He is well, and would doubtless be released or discharged but for the fact that he is without means. The Government owes him \$1,025.00 (less interest) for arrearages of compensation and mileage as a member of the House of Representatives, as attested by the report of a committee of that body. This sum, if he had it, would enable him to become properly placed; but in the meantime he is praying for the recovery of President Garfield, in whom he trusts for relief, and who could, without difficulty, assign him to

souted to his character and sbilities. He is "a young man yet"—that is to say, he is not old enough to be considered "superannuated." He blooms upon tenderloin and truffles without either blue pill or "Dr. Radway's Heady Relief." He has asked for the consulate at Cardiff. South Wales, not because he would not willingly take another, even a higher position, at home or abroad, but for the reason that he has become interested in the antiquities of Wales, and wished to write a book on that subject.

CAPTAIN HOWGATE'S CASE. Assignment of Mis Property to Secure Mi

Bondamen. A deed was yesterday morning filed in the Recorder of Deed's office, executed by Henry W. Howgate and Cordelia Howgate, his wife, conveying to James E. Pitch and Robert C. Fox, trus-tees, the following property to secure W. W. Mc-Cullough, W. B. Moses, and Notley Anderson as preties on his bond of \$40,000, recently given : Lot Davidson's subdivision 169; lot 7, Kidwell's sub-division 217; lots 205 to 210, Howgate's subdivision, Patterson's subdivision, square 295; lots 30 to 38, Willard's subdivision, square 238, and part lot 10, square 289. The deed is dated August 20, and was filed at half-past ten. As the marshal selzed all of Captain Howgate's property Wednesday night, by six o'clock, it is claimed that his writ of attachment has priority over the transfer, and that the latter is not effective. It is understood that this for the present closes all proceedings against Captain Howgate until the trial. It is not probable that he will be rearrested unless he attempts to leave the country, which is not very likely. The appraisers, T. J. Fisher, W. B. Williams, and E. J. Stellwagen, yesterday returned a valuation of the property at-

tached at \$110,205. THE WATER SUPPLY.

Waste in Government Departments and on Public Grounds.

The Commissioners have replied to Mr. E. C. Kirkwood, of Capitol Hill, in reference to his complaint of the scarcity of water in that section of the city, saying that there can be no remedy at present owing to the great waste in the Capitol grounds, over which they have no control. They lay the waste in the other Government De-partments to the fact that the pump which furnishes the water for the stand-pipe at the head of Sixteenth street, to supply water to the high points in the northwestern part of the city, cannot be run at its full espacity, owing to the insuffi-cient supply of water coming into the city from the Potemac River to feed the same. What is necessary to be done is for Congress to appropriate oney to finish the work it commenced by extending the dam all the way across the Poto at the Great Falls, and run an additional main or conduit from the distributing reservoirs near Drovers' Rest across Rock Creek into Washing-ton. They state that Congress alone can furnish the relief, and suggest that the citizens petition

John Anderson in America. As a Republican reporter stood looking
